

XVIII ANPIR Conference

We are pleased to announce the XVIII ANPIR Annual Conference to take place in Zaragoza (Spain) from the 24th to the 26th of May, 2018.

This Annual Conference has become a major reference in Spain, not only in Clinical Psychology but also in the "Health in mind" area in general. Now, we also aim to be an international reference.

This year our slogan is "**Health in Mind: moving forward together**"

We want this Annual Conference to be a meeting point of the leading players in Clinical Psychology (Societies, clinicians, managers, universities,...) and a meeting point of Psychology with Society (clients, families, technology, other cultures...). We want to share moments of mutual listening amongst the people that fight for a better health of our fellow citizens. That is why we need to approach one each other, talk about our shared aims and goals and move forward together.
